

# Join the Civic Matters Workshop Design Team

## Get paid to make a difference in your community.

- Are you looking to make an impact in your community, but don't know where to start?
- Would you like to build your resume with workshop design experience?
- Do you want to meet and share ideas with amazing NYC women in a safe, virtual space?

### About the Workshop Design Sessions

The WCC Workshop Design Team will shape all aspects of developing the Civic Matters Workshop Program. The Workshop program aims to build a women's civic engagement community with information, education, skills, and networks to make a positive difference in their communities.

The Workshop Design Team offers a series of interactive sessions where previous workshop participants gather as full collaborators to help build future workshops.

The goal is to develop a civic engagement workshop series that provides a helpful, exciting, and collaborative leadership opportunity for NYC women by engaging participants in every step of the planning process. This will include making decisions about topics, goals, outreach and more ([see previous workshop information here](#)).

*WCC believes there is power in knowledge, community, and in our collective voices. We want to improve the conditions of women's lives and make New York City a better place.
